What services would you like to see offered in Ashley County?

- Pediatrics!!!!!!!!!!!!!!!!
- Dementia/Alzheimer's support groups
- Urgent care facility
- Internal Medicine, Orthopedics
- Outpatient Geriatrics, Outpatient Psychiatry, Mental health services
- More family practice doctors
- Prescription Assistance Program
- After hours care besides ER
- Cardiology, Audiology
- More information services and help with literacy problem
- More choices for general surgery
- Education geared toward children and young parents
- ENT, Dermatology
- Teenage pregnancy prevention
- More outreach in smaller communities
- Telemedicine with specialists
- Better cardiology
- Better coordination of services reducing duplication of testing
- Better eldercare and follow-up
- Assistance with utilities
In your own words, why do you think the health statistics in Ashley County are poor?

- Low socioeconomic status
- Lack of Education
- Poor Education
- Lack of community knowledge about services
- Need areas to exercise
- Good health is not encouraged
- Bad habits
- Lack of Finances
- Poor Air Quality
- Poor Self-esteem
- Poor access to healthcare
- No one wants to get involved in finding solutions
- Lack of jobs to encourage health professionals to the area
- Lack of Doctors
What concerns you most about health care in Ashley County?

- ER Area
- I think it is improving but still needs work on improving critical care issues
- Why testing has to be redone again if referred to Little Rock- they say testing here isn’t good enough
- Not enough doctors
- Ability to provide high quality of care to a small population
- No pediatrician; need for pediatrician – *mentioned several times*
- Nothing, we have air-evac if it is a service needs above ACMC’s capabilities
- Care provided primarily by hospitalist and not primary care physician that knows patient
- Being able to recruit and retain physicians
- Not enough family practice doctors
- Specialists needed in ENT and pulmonologist
- The cost which is nationwide
- Obamacare and the ability for the doctor to be more personal with patient
- Doctors are few and limited and not accepting new clients or only see set # of clients a day
- Aging Physicians
- People won’t use the doctors that are available here and hard to keep of staff
- Expertise and quality a concern
- Many family practice doctors are not taking new patients
- Inadequate public awareness of services provided at ACMC
- Compassion for patients

Ashley County Medical Center

What do you think Ashley County Medical Center can do to help change these statistics? Survey Answers

- More health education and free support programs
- Explain things better to patients
- Patient Education
- Work better with other agencies
- Educate staff better to speak to their patients on their educational level
- Improve continuity of care with other health entities
- Help community to be able to provide active lifestyles
- Telemedicine with specialists
- Revamp how services are delivered
- Be good role models of good health
- Educate community about hospital services
- Encourage more community interaction and participation in forums like this one
- Work together with different organizations, schools, businesses, individuals, and see if we can get some plans in motion
- Physician recruitment
- This form is a good start. Hearing from people in the community. Finding out what they need and help them become informed on what is available
